ACM (Association for Computing Machinery), 15
addresses
    Internet networks, see Internet, addresses
    non-Internet networks, see electronic mail gateways
Advantage Foundation, 100
Aeronautical Navigation
    databases, online, 124
Agriculture
    databases, online, 26, 125
Almanac electronic mail server, 26, 99, 182-83
AlterNet
    contact information, 201
Amdahl's Law
    and optimizing compilers, 226
Andrew File System, 254
Annenberg Foundation, 181
ANS
    contact information, 201
Applelink
    sending electronic mail to, 36
ARC, 51
archie, 65-69
    accessing by e-mail, 66
    sample TELNET session, 67-68
    syntax, 66
archived files, 49
archives, see FTP, file archives
Area Studies
    databases, online, 123, 125, 126
ARPANET, 7, 10
Artificial Intelligence
    bibliographies, online, 126
    databases, online, 127
Astronomy
    archives of software, 128
    bibliographies, online, 128, 129
    databases, online, 128, 129, 130
    supercomputer software, 241

B

BARRNet, 11, 177
    contact information, 198
BBSs (Bulletin Board Services), 185
bibliographies, online, 119-47
binary files
    and FTP, 50
    USENET discussion groups about, 52
BinHex, 51
Biology
    supercomputer software, 252, 259
BITNET, 13
    and LISTSERV, see LISTSERV
    sending electronic mail to, 36
BLANCA, 240

C

cache memory
    and supercomputers, 219
career development
    databases, online, 125
Census
    databases, online (Canada), 122
    databases, online (U.S.), 131
CERFnet, 11
    contact information, 198

Chatback, 175
Chemical Engineering
    supercomputer software, 241
Chemistry
    archives of software, 131
    supercomputer software, 241, 252, 259
CICnet, 11
    contact information, 198
CNSF (Cornell National Supercomputer Facility), 231-35
Colorado Supernet
    contact information, 198
commercial networks, 180
    contact information, 201
compressed files, 49-50
CompuServe
    sending electronic mail to, 36
Computational Fluid Dynamics
    supercomputer software, 231, 241, 252
computer software
    databases, online, 132
    FTP archives, 132, also see Archie
CONCERT Network
    contact information, 198
Connection Machine
    and parallel architecture, 220, 221
    and WAIS, 148
    at NCAR, 236
    at NCSA, 240
    at PSC, 251
    at supercomputer sites, 219
consumer affairs
    databases, online, 125
COSMIC, 132
CRAY Macro and Microtasking, 223
CRAY supercomputers, 219
    and parallel architecture, 220
    at NCAR, 236
    at NCSA, 240
    at NERSC, 247
    at PSC, 251
    at SDSC, 259
CREN (Corporation for Research and Educational Networking), 13
CSNET, 13
CULDAT (Canadian Union List of Machine Readable Data Files), 122

D

DARPA, 7
databases, online, 119-47
    and K-12 education, 187
    general interest, 123, 125
DDN (Data Defense Network), 10
DECnet
    sending electronic mail to, 36
directory services, 158-69
    astronomers, 127
    table of services and syntaxes, 163
Disabled Data Link Group, 175
DISNET, 10
Distance Education
    and K-12 education, 188
    databases of information about, 135
DNS (Domain Name System), see Internet, addresses
domain, 9

E

EARN, 13
Earth Kids project, 175
Ecology and Environment
    databases, online, 128, 134
    simulation software, 134
Economics
    databases, online, 123, 125
EDUCOM, 16
Electrical Engineering
    supercomputer software, 241, 252
electronic books, 98-102
    LISTSERV discussion group, 102
electronic journals, 96
    and K-12 education, 186
        list of journals, 197
    comprehensive directory, 97
    subscribing, 96
electronic libraries, see OPACs

electronic mail, 20-39
and K-12 education, 182-83
basic introduction, 20-25
compared to postal mail, 21-24
etiquette, 28-33
mailbox, 25
signature file, 29
software, 24-25
stylistic conventions, 28-30
technical references, 27
electronic mail gateways, 34-39
online list of, 37
published compendia of, 37
table of examples, 36-37
electronic mail servers, 25-27
online list of, 27
sample session, 26
Electronics
supercomputer software, 231
Engineering
supercomputer software, 231, 242, 252
ENZYME database, 137
ESnet (Energy Sciences Network), 10
sending electronic mail to, 36

F

FAQs (Frequently Asked Questions)
FTP archives of, 77
in USENET newsgroups, 77
FidoNet
description, 179
sending electronic mail to, 36
file archiving programs, 49
example of how to use, 50-51
explained, 49
getting a comprehensive list, 52
file compression, 49-50
example of how to uncompress, 50-51
USENET discussion groups about, 52
file compression programs
getting a comprehensive list, 52
file directories
anonymous FTP hosts, 40-41
root directory, 40
flame-war, defined, 80
FrEdMail Foundation
contact information, 213
Free-Net, 123
FTP (File Transfer Protocol), 39-48
anonymous, 39-46
brief sample session, 41
expanded sample session, 42-46
online list of hosts, 48
short list of FTP hosts, 42
basic commands, 42
copying files, 44
online help, 47
technical references, 48
FTP file archives, 39-46, also see Archie
FTP hosts
defined, 39

G

gateways, see electronic mail gateways, see electronic mail gateways
Gene-Server database, 137
Genetics
databases, online, 135-40
Geography
databases, online, 140
Grants and Contracts
databases of, online, 141
graphics
software for personal computers
FTP archive at NCSA, 241
supercomputer software, 232, 236, 241, 247, 253, 260
Gutenberg, Project, 26, 98-100
contact information, 100
electronic texts by e-mail server, 99
electronic texts by FTP, 99
LISTSERV discussion group, 102

H

HEPNET (High Energy Physics Network), 10
History
databases, online, 142
host, 9

I

IBM 3090 supercomputer, 219
    and parallel architecture, 220
    at CNSF, 231
IETF (Internet Engineering Task Force), 16
independent memory banks
    and supercomputers, 219
    operation of, 219
INFO-SOUTH, 125
Interbit (Internet-BITNET) gateways, 35
Internet
    addresses, 8-9
    basic description, 6-18
    general references, 13, 14
    Internet Protocols
        technical references, 13, 15
    organization in the U.S., 9
    support and training for K-12 educators, 177
Internet Society, The, 16
INTEROP, 16
IP address (Internet Protocol address), see Internet, addresses
IuBIO software archives, 131, 138

J

JANET
    sending electronic mail to, 36
JVNCNet, 11
